Meet Alex Oshmyansky Who Convinced Mark Cuban to Sell Drugs

After earning his doctorate and a medical degree, Dr. Alex Oshmyansky set off on a seemingly impossible quest: disrupt the pharmaceutical industry. Along the way, he was joined by a billionaire maverick, Mark Cuban.

After meeting with Oshmyansky, I wasn't surprised that he would earn the trust of an investor like Cuban, who has called Oshmyansky one of the most intelligent people he knows. Alex is laser-focused, with a mind that operates on a plane above, but he is welcoming and understated at the same time.
