

Expand Access to Biomarker Testing in Texas

(from left to right) Marissa Beasley, American Cancer Society Cancer Action Network, Kathleen M. Otto, BioNTX, Steven Paulson, MD, Texas Oncology, Chase Wasson, Caris Life Sciences, Kay Kamm, MS, American Cancer Society Cancer Action Network and Gabby Everett, PhD, BioLabs Pegasus Park

Trish Robinson, Senator Tan Parker

Milan Radovich, PhD, Caris Life Sciences

Steven Paulson, MD, Texas Oncology

BioNTX in collaboration with Caris Life Sciences and American Cancer Society held an educational briefing this week at BioLabs Pegasus Park. Experts in the life saving value of using Biomarker testing spoke to North Texas regarding the importance of supporting HB3188 & SB989 in the 88th Texas Legislature.

HB3188 and SB989 addresses legislation that will ensure all Texans have improved access to the latest biomarker medical innovation, saving lives and tax dollars. Please join us in calling on the Texas legislature to require appropriate coverage of biomarker testing for public and private insurance plans.

BioLabs Workshop Designed to Help Teachers & Future Generations Solve Research Problems

Paolo Soto, BioLabs Pegasus Park

Alyssa Dubrow, BioLabs Pegasus Park

BioLabs hosted 20 local teachers for a Teachers STEM Development Workshop this week. The workshop included an in-depth instrument analysis program that taught the principles of common molecular techniques such as Next Generation Sequencing, DNA engineering, flow cytometry, fluorescence + confocal microscopy, and HPLC/FPLC. These are techniques that are frequently used in any biotech R&D, manufacturing, or quality analysis job and are skills that will be highly sought after in North Texas in the years to come.

The workshop culminated in an original research proposal presented by the teachers focusing on techniques they would use to solve current research questions. The program can be packaged and delivered to high school campuses across the region to give students a peek into the “real world” application of what they’re learning in class.

University Lab Expansion in NTX
May 22, 2023
Brought to You by BioNTX Facilities Committee

The BioNTX Facilities Advisory Committee is hosting a panel highlighting the ways in which our world class universities have lead the charge in building a strong life science ecosystem in North Texas. Our region is fortunate to be a top-tier university hub, fostering the future leaders of life science. This is due, in large part, to the investments the universities have made to their innovative facilities. Leaders in life science AEC – Architecture, Engineering, Construction – and education continue to work together to build spaces and create learning environments that attract and retain top talent. We hope you’ll join us on Monday, May 22, 2023 at Pegasus Park to learn more about the innovation and growth of these institutions.

Register now

Apply for an Opportunity to Speak with NIH Institute at BioLabs Pegasus Park

During this program, you will have the opportunity to hear from experts at the NIH Institute at BioLabs Pegasus Park about SBIR/STTR opportunities in cancer, learn about the nuances of research funding for small businesses, and apply for one-on-one meetings.

Register now

HSC Next SBIR Phase 0 Program

The HSC Next SBIR Phase 0 Program provides innovative Tarrant County companies with one-on-one guidance, beginning with technology assessment. Select companies will enter a comprehensive one-month, cohort-based program that meets weekly and guides them through the grant writing processes. Additionally, participants receive one-on-one mentorship with SBIR experts that help founders fine-tune their proposals to increase the likelihood of receiving federal funding.
