

Alpha Cognition's Announces Positive Pre-Clinical Data ALPHA-0702 and ALPHA-0802

Alpha Cognition Inc. is a clinical stage, biopharmaceutical company dedicated to developing treatments for patients suffering from neurodegenerative diseases, such as Alzheimer's disease and Amyotrophic Lateral Sclerosis (ALS), for which there are limited treatment options.

ALPHA-0702 and ALPHA-0802 have demonstrated robust results in a recent preclinical study, leading the Company to believe in the future potential of this platform. "Benefits have been observed in preclinical studies and strongly support the continued development of both compounds for the treatment of neurodegenerative diseases", says Denis Kay, the Company's Chief Scientific Officer.

Aakha Biologics Relocates from BioLabs to Permanent Headquarters in Frisco

BioLabs Pegasus Park announces that Aakha Biologics, an inaugural tenant, has successfully taken the next step in its development by relocating to permanent headquarters in Frisco, Texas.

"Our time at BioLabs Pegasus Park proved to be an ideal situation for us. We had excellent opportunities to interact with colleagues and like-minded entrepreneurs," said Hemanta Baruah, PhD, founder and CEO of Aakha Biologics.

"Aakha Biologic's commitment to locate and grow in North Texas signals the region's strong biotech commercialization potential. Operations here in North Texas are supporting promising life science startups that will change the world and benefit mankind," said BioLabs Pegasus Park's Site Director, Gabby Everett, PhD.

- Lauren Rose, City of Sachse
- David Holliday, Evolve Biologics
- Jeff Bickerstaff, City of Sachse
- Jim Caggiano, Evolve Biologics
- Kevin Shatley, Dallas Regional Chamber

Where Should ARPA-H Live? Texas wants the Agency in the Lone Star State

The Coalition for Health Advancement and Research in Texas (CHART) today thanked and congratulated the U.S. House of Representatives for Passing H.R. 5585.

“No other state can match all that Texas has to offer to ARPA-H – a highly diverse population, a world-class medical infrastructure, a central location easy to reach from both coasts, and a proven track record of deep commitment to medical research. And the quality of life in Texas is attracting Americans from all over the country to move here, making Texas the fastest growing large state.

Making Fort Worth a Robust and Growing Entrepreneurial Ecosystem for Start-Ups

The City of Fort Worth is exploring ways to adapt programming and resources currently provided at the Devoyd Jennings Business Assistance Center to ensure that it meets the evolving needs of the city's small-business community.

As part of that effort, the Economic Development Department is seeking feedback on what the community would like to see in an equitable, robust Business Assistance Center, which will in turn further grow and strengthen Fort Worth's growing entrepreneurial ecosystem.

BioNTX's Regulatory 101 on July 12 at BioLabs NTX

BioNTX

PEGASUS PARK

What is regulatory affairs? Why do you need it? Are you interested in learning more about regulatory affairs in the biotech and life sciences industry?

[RVSP Now!](#)

It is important to understand the role that regulatory affairs plays and how it can help your business / start-up flourish and avoid unnecessary obstacles.

To learn how to prevent obstacles and set backs, please join this educational session on Regulatory 101 at BioLabs.

There will be great opportunities to speak with an expert on regulatory affairs and network with other entrepreneurs.

Join BioNTX at our Career Expo on July 22!

BioNTX

Meet with employers in the life science and healthcare innovation industry

This full day educational program will feature multiple activities and speakers. Life science recruiters and career development professionals will help job seekers, post-docs and students be prepared for their job search and interview process by giving resume and interview advice. They will be able to network with employers that have open job opportunities and learn more about their company.
