

BioNTX Members and Job Seekers Join the BioNTX Talent Network!

BioNTX
Talent Network

Join now

BioNTX members, are you struggling to find top talent when recruiting for your open positions? Not enough candidates applying?

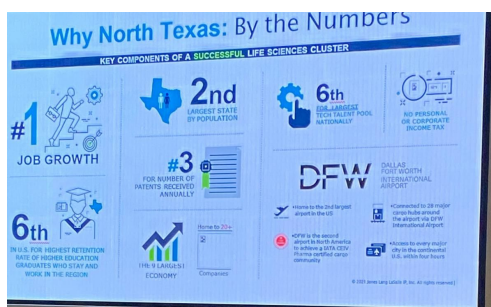

Job seekers, are you looking for jobs in the biotech and healthcare industry? Are you moving to North Texas or trying to obtain a job here in NTX?

Look no further!

BioNTX invites you to join our Talent Network on LinkedIn where BioNTX members may post their open positions. This platform provides a more engaging and personal experience for the candidate and helps us build a Talent Network

Post your jobs and join us in building a robust NTX Talent Network !

Celebrating 2022 International Women's Day

Women Driving Innovation

BioNTX brought together some of the most accomplished and innovative leaders in North Texas on March 8th to celebrate International Women's Day and to inspire and engage the women working in bioscience and healthcare innovation across the Texas ecosystem.

It was a great night thanks to our speakers, generous sponsors and all of our attendees!

We look forward to next year's celebration!

Speakers: (left) Sylvia Trent-Adams, PhD, Elaine Murphy, Carly Kiernan, and Shalini Prasad, PhD

North Texas rocks with Lyda Hill Philanthropies' If/ThenSheCan Art

[Learn more here](#)

BioNTX was proud to include the If/Then She Can project at the Women Driving Innovation event on International Women's Day

If/Then is part of Lyda Hill Philanthropies' commitment to game-changing advancements in science and nature. This exhibit seeks to further advance women in science, technology, engineering and math (STEM) by empowering current innovators and inspiring the next generation of pioneers.

If/ThenSheCan at Smithsonian UTA Professor, one of 11 Texan women!

UTA Professor, Minerva Cordero, PhD

[Learn more here](#)

This national exhibit featuring a statue of Minerva Cordero, professor of mathematics at The University of Texas at Arlington, is on display at the Smithsonian Institution in Washington D.C. through March 27th.

If/ThenSheCan—The Exhibit is the largest collection women statues in the world. There are 120 3D-printed statues of female leaders in the fields of science, technology, engineering and mathematics (STEM). Dr. Minerva Cordero and 10 other Texan women were chosen by the American Association for the Advancement of Science in partnership with Lyda Hill Philanthropies. Through this art project, LHP and the AAAS recognize women in STEM all over the world. **STEM +Art = STEAM**

New Member Highlight: Qualio

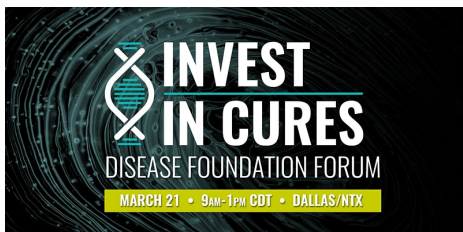

[Learn more here](#)

Is your life sciences company still using paper as part of your quality management system (qms)? Qualio's all-in-one digital qms and expert advisory team helps companies launch and scale their life-saving products. Over 400 medical device, therapeutics, clinical research, and consumer goods companies leverage Qualio's cloud qms to not only get to market faster but also unite their teams' processes and data.

With Qualio, companies can safely scale and swiftly bridge product development and quality management - while also seamlessly achieving 100% ISO, GxP and FDA compliance and consistent audit-readiness. Qualio's global, remote-first team prides itself on empowering customers to give patients faster access to products they can trust to improve their lives.

If your company is considering the move from a paper to digital qms, [learn the steps](#) for a successful transition. Questions? Get in touch with us [here](#).

Please join BioNTX at Invest In Cures, a Forum for Rare Diseases

BioNTX is proud to be a part of LaunchBio's *Invest in Cures*. This event explores how disease foundations are accelerating early-stage therapies and treatments for patients.

Speakers from leading disease foundations and social venture funds will [join us in-person at Pegasus Park](#) on [March 21 9am-1pm](#) to discuss their research strategies and investment philosophies. The program features examples of successful partnerships with NTX startups, and offers in-person networking.

Featuring

- Crohn's & Colitis
- BrightEdge Ventures (American Cancer Society)
- CureDuchenne
- Foundation for Fighting Blindness
- Dementia Discovery Fund
- Rare Village
- Bios Partners

TCU School of Medicine is Building a New Campus in Fort Worth's Medical District

The project will kick off with a four-story, approximately 100,000-square-foot medical education building, which TCU says will serve as an "academic hub" for around 240 students and hundreds of faculty and staff members, after its planned completion in 2024.

At the new campus, TCU School of Medicine's innovative curriculum will continue—with students focused on major drivers of medicine's future, including AI, genomics, and advanced monitoring technology.
