90 Patient Organizations Sign-on to NORD Letters to Secretary Becerra and Congressional Leaders on Strengthening the Accelerated Approval Pathway

NORD[®]
National Organization
for Rare Disorders

NORD and the other 90 co-signing organizations believe reforms are necessary to help ensure patients have timely access to rare disease treatments that have been FDA approved through the accelerated approval pathway.

One letter is directed toward Congressional leadership urging them to incorporate into legislation to reauthorize the Prescription Drug User Fee Act (PDUFA) several policy recommendations to strengthen the accelerated approval.

Another letter is directed to HHS Secretary Becerra, urging him to support the efforts underway within Congress and FDA to strengthen the accelerated approval pathway and reject policies that could limit patient access to rare disease and other therapies that utilize accelerated approval.

University of North Texas Health Science Center at Fort Worth Hosts the TABS Preceptorship Program That Brings Real Life Experiences for Students

THE UNIVERSITY *of* NORTH TEXAS
HEALTH SCIENCE CENTER *at* FORT WORTH

Through a partnership with the Fort Worth Independent School District's (FWISD) Texas

Academy of Biomedical Sciences (TABS) early college high school, students interested in biomedical/health professional careers have an opportunity each spring to shadow HSC faculty and fourth-year Texas College of Osteopathic Medicine (TCOM) students, attend medical school lectures, participate in experiences like anatomy lab and explore their options for college and the future.

This year marks the 10th TABS senior class preceptorship hosted at the University of North Texas Health Science Center at Fort Worth campus. These graduating seniors have interests in research, medicine, dentistry, veterinary science, allied health, biomedical careers and related areas.

OncoNano Medicine Announces Positive Preclinical Data for Tumor Specific Delivery at AACR 2022 Annual Meeting

[Learn more here](#)

OncoNano Medicine, Inc. today announced positive results from the company's ON-BOARD™ pH-sensitive nanoparticle platform. The data, presented at the American Association for Cancer Research (AACR) Annual Meeting 2022, demonstrate that the clinically validated ON-BOARD™ platform has the potential to be a universal tool for tumor specific activation and the efficient delivery of proteins for an improved therapeutic index.

The University of Texas at Tyler's Medical School Targeting Summer 2023 for 1st Class

Tyler's new medical school could be up and running by the summer of 2023, according to Dr. Julie Philley, executive vice president, health affairs for The University

[Learn more here](#)

of Texas at Tyler. Plans for the school were first announced in February of 2020, but were quickly overshadowed by COVID-19. But one year and eight months later, the process of actually creating that school is well underway.

The medical school will be the seventh in the UT System and the first in northeast Texas, offering local aspiring doctors a chance to train and practice without leaving the area.

Texas Medical Center Doubles the Size of the TMC Venture Fund to \$50 Million

TMC

TEXAS
MEDICAL
CENTER

The TMC Venture Fund launched in 2017 as a \$25 million initiative to fill a much-needed gap in the Houston venture capital ecosystem. Since its inception, TMC Venture Fund has partnered with 16 startups, with a focus on digital health and medical device companies.

“Over the past five years, the TMC Venture Fund has been privileged to partner with extraordinary entrepreneurs to help them achieve their visions,” said John (JR) Reale, Venture Lead for the TMC Venture Fund.
