Starting a company in the life sciences can be hard, but you don't have to do it alone! North Texas has a vast arsenal of incredible resources for new and seasoned entrepreneurs alike. Come hear from local industry experts as we dive into funding, business fundamentals, IP strategy, and risk management.

Supply & Demand: Lab + Building Conversions

A Blunt Conversation About Conversions

North Texas is ripe with spec warehouses, office space, and land for development, but there are many costs to consider when choosing a facility location; including financing, operational time to market, environmental costs, tradeoffs, and more.

Bridge Labs expansion coming soon to Pegasus Park

Biomanufacturing: Moving to North Texas

The Physical Space of Biopharma Manufacturing

Biopharma is the intersection of biotechnology and pharmaceutical manufacturing, addressing the physical spaces required to bring revolutionary treatments including cell and gene therapies, to patients who need them.

AI and iC³: Evolving Drug Development

How and Where is AI Impacting the Biopharma Industry ?

Come hear Panna Sharma, CEO of Lantern Pharma and other expert panelists speak to how development can be a long, winding road. A plethora of AI tools are revolutionizing the drug discovery process at nearly every level, reshaping the speed, targets and economics of the industry.

Hear Texas' Top Industry CFOs Speak on Drug Launch Life Cycles

Come listen to executive leaders from life sciences speak on different stages of the drug launch life cycle, and discuss challenges, opportunities, and futures to provide perspective for other companies embarking on the same journey. Hear tangible examples of successes, pitfalls-and how to avoid them, as well as personal stories from commercial launches.

iC³ Alumni Are North Texas Ecosystem Leaders

Gabby Everett, PhD, Director of Business Operations & Strategy, Site Head at BioLabs Pegasus Park shares her experience with BioNTX's iC³ Life Science Summit.
